

Charts Featured in- Loom Knitting Guide & Patterns

Perfect for Beginner to Advanced
Loom Knitters!

Learn basics, find valuable reference information, see knitting math explained, and get the most out of your knitting skills including chart reading and needle pattern converting. Multiple patterns are included.

KRISTEN MANGUS

P2tog psso	Sl1 K2tog psso
Sl1 K2tog psso	P2tog psso
Increases	
P into back and front	K into front and back
P into front and back	K into back and front
K into back and front	P into front and back
K into front and back	P into back and front

*Handy chart for converting stitches to the "opposite" stitch for the WS for loom knitting. Also handy for converting a flat piece of needle knitting into circular.

Quick Rule of Thumb: If knitting in the round, use all the same stitches as a needle pattern, for a flat panel use the opposite stitch for WS (Wrong side) if written out. If the needle pattern has a chart simply knit as the chart says starting from the bottom and working upward.

Stitches on the WS will need to become the opposite stitch or lean an opposite direction when converting knitting patterns to loom.

For example: A knit will become a purl and a purl becomes a knit.

Guidelines and Tips

Loom size vs. needles size:

Converting knitting patterns to loom also requires figuring out which loom gauge to use. For a chart with common looms and needle size equivalents see chart below or ebook available. More tips on stitches are in ebook as well.

Charts:

Read notes in ebook on understanding knitting charts.

To help you get started there are some simple guidelines to make converting knitting patterns to loom simpler:

NOTE: Needle patterns usually need the FIRST ROW directionally headed clockwise (right to left). _ 9 8 7 6 5 4 3 2 1

1. To get the pattern in the right order you'll need to START your cast on from left to right (counterclockwise) in a cast on type that will cast on in the first pass (best cast on type listed below**) _ 1 2 3 4 5 6 7 8 9.
2. For Row 1 simply change direction and knit row. If it states RS knit as usual. If it states WS you will need to convert the stitches to the opposite stitch as shown below in the handy chart.

*Many times the even numbered rows are WS (Wrong Side). Be sure to read **all** notes in the entire pattern before converting. There may be key information you need to make the best choices.

Needle Range	C2C	Gauge	Yarn Weight Range (UK/AU)	Average sts per in	Crochet (US)
1 - 3 (2.25 mm/3.25 mm)	3/16"	EFG	US 0 - 2 (1-3 ply)	7 - 8 sts	A - D
3 - 6 (3.25 mm/4 mm)	1/4"	FG	US 1 - 3 (2-4 ply & 8 ply)	5 - 7 sts	D - G
5 - 8 (3.75 mm/5 mm)	5/16", 3/8", 7/16"	SG	US 2 - 4 (2-4 ply, 8 ply & DK)	4 - 5 sts	F - H
8 - 10 (5 mm/6 mm)	1/2", 9/16"	RG	US 4 - 5 (8 - 12 ply, DK, Aran)	3 - 4 sts	H - J

* Kiss Looms are adjustable by number of pegs used in the round as well as gauge adjustable and mimic the needle sizes in needle knitting by allowing you to add washers between the peg and pin boards to change the gauge of the fabric produced. With a single loom you can knit patterns from a size 7 to a size 13 needle or a 3/8" to 3/4" loom pattern. Washers can be added in any increment.

** Modular looms (from Kiss) are made to connect together to make any size loom with any peg count;

1 End Pair set and Peg Sides (the longest side of the loom; bought as a pair) make up 1 loom. End Pairs peg count options vary per loom.

Needle Range	C2C	Gauge

GUIDE: Use Chart to convert needle patterns to best loom & yarn. Look at stitches per inch and needle size. Test the yarn on your loom with a gauge swatch. Adjust yarn to thinner for more sts per in or thicker for less. Wash or block swatch before measuring for accuracy.
(Sts per in low range is lowest sts per inch with smallest recommended needle. Higher sts per in. is for larger needle. The same applies to Yarn Weight)

Swatch Math: How many Stitches to Cast-on? How many Rows to knit?

Tip - wash or block item first; most gauges called out in patterns are blocked first before measuring.

Cast-On Formula used:

Swatch is S stitches and measures W wide. The stitches per inch is S/W and desired width is dW.

The Stitches to Cast-On = (dW x S/W). Divide Stitches counted in swatch by swatch Width measured. Multiply by Desired Width.

Now for the Rows Calculations:

Formula for rows needed = (dL x R/L) where dL is desired length, R is number of measured rows and L is length measured.

Divide Rows counted in swatch by swatch Length measured. Multiply by Desired Length.

Sock Chart (measurements)

			Infant/ Child				Adult	
	Premie	Baby	Baby	Baby	Toddler	Child	Woman	Man
	5-7 lbs	7-9 lbs	3 mth - 6 mth	6 - 12 mths	12 mth - 4 yrs	5 - 12 yrs

Yarn Amount Loom Gauge order EFG/ FG/ SG/ RG or U.S. Needle 1-3/ 3-6/ 6-8/ 5-7/ 8-10					Fingering 270 Sport 210 DK 200 Worsted 180	Fingering 350 Sport 280 DK 250 Worsted 225	Fingering 450 Sport 380 DK 350 Worsted 320	Fingering 550 Sport 450 DK 400 Worsted 350

* Sizes based upon averages. For accuracy always measure the foot. Measurements should be taken with full weight upon the foot/resting. Length measurement is taken from the back of the heel to the large toe. The width of the foot is measured in the widest place, usually around the ball of the foot. Measurement from the back of the heel vertically to intended cuff will indicate the height of the sock.

* For a slipper sock use the widest width. For a snug fitted sock take 10% off for negative give (ease)

EFG = Extra Fine Gauge (3/16") = Equiv. Needle 1-3 (2.25 mm - 3.5 mm)

FG = Fine Gauge (1/4") = Equiv. Needle 3-6 (3.5 mm - 4 mm/4.25 mm)

SG = Small Gauge (5/16", 3/8", 7/16") = Equiv. Needle 6-8 (4 mm/4.25 mm - 5 mm/5.25 mm)

ES or SG = (5/16, 3/8") = Equiv. Needle 5-7 (3.75 mm - 4.75 mm)]

RG = Regular Gauge (1/2", 9/16") = Equiv. Needle 8-10 (5 mm/5.25 mm - 6 mm)

LG = Large Gauge (5/8", 11/16") = Equiv. Needle 10-13 (6mm - 9 mm)

XLG = Extra Large Gauge (3/4", 13/16", 7/8", 15/16") = Equiv. Needle 13-15 (9 mm - 10 mm)

MATH on socks for knitters:	
1	Measure around ball of your foot (at widest part near toes) with foot resting on it's weight.
2	Multiply # of inches by the gauge. (gauge will need to be determined from measuring a swatch made with intended yarn and tools).
3	Subtract 10 % of this number for negative give for fitted socks.
4	The result is the number of stitches to cast on in stitch used in swatch.
