# 1. Introduction

Thank you for purchasing my Loom Knit Bunny Easter Basket FREE pattern. My name is Anna and I started my journey with loom knitting over year ago. Since then I made over 100 different hats for children and I started to make stuffed toys. English is not my first language so I do apologise for any mistakes:) I will show you step-by-step how to make my bunny (this is not a toy) I used for this project 31 and 24 pegs round loom also I used two strands of worsted weight yarn held together. You can also use 1 strand of bulky weight yarn or quite often I use 4 strands very thin yarn (there isn't always a choice of colours).

**Skills level:** Intermediate

**Tools:** 31 pegs loom, 24 pegs loom, yarns, hook, yarn needle, safety eyes (10mm), pipe cleaners, fibrefill, measure tape, felt sheet, scissors

**Size:** 8 inches tall / 12 inches wide

**Important:** All my projects are based on e-wrap stitch. When you make basket use super chunky yarn or like I did 4 strands of yarn.

## 2. Bunny Easter Basket

### Materials:

### Next we make:

#### Bottom for basket (white yarn and fur yarn) :

- We use 31 pegs loom. Make slip knot and put on your anchor peg. Cast on all the pegs wrapping twice each peg. Pull the bottom loop over the top loop.

- Wrap each peg and pull the bottom loop over the top. Keep repeating this until you make 10 rows.

- Leave longer tail of yarn and thread the needle with it. Go through each loop and take it off the loom.

- Pull the yarn to close the work and finish off.

- Your bottom for basket is ready.

## **Sides for basket (white yarn and fur yarn) :**

- We can use 31 or 24 pegs loom. Make slip knot and put on your anchor peg. Then wrap 10 pegs twice and pull the bottom loop over the top. Working to the right and back we will wrap and knit these pegs till we get 18 inches (46 cm).

- Leave longer tail of yarn and thread the needle with it. Take off loops from the loom and finish off. You can bind off or just take them from loom is easy and quick. Sew both ends of rectangle together.

- Sides for basket are finished.

### **Holder for basket (white yarn and fur yarn) :**

- We can use 31 or 24 pegs loom. Make slip knot and put on your anchor peg. Then wrap 6 pegs twice and pull the bottom loop over the top. Working to the right and back we will wrap and knit these pegs till we get 12 inches (30 cm).

- Leave longer tail of yarn and thread the needle with it. Take off loops from the loom and finish off.

- Use pipe cleaners and sew it inside.

- Holder is finished

## Head (white yarn and fur yarn) :

- We use 24 pegs loom. Make slip knot and put on your anchor peg. Cast on all the pegs wrapping twice each peg. Pull the bottom loop over the top loop.

- Wrap each peg and pull the bottom loop over the top. Keep repeating this until you make 12 rows.

- Leave longer tail of yarn and thread the needle with it. Go through each loop and take it off the loom.

- Pull the yarn to close the work and finish off.

- Your head is ready.

## **Ears part 1 (white yarn and fur yarn):**

- Start with making a slipknot and put on your anchor peg. Then proceed to cast on 5 pegs. Wrap each peg twice and pull the bottom loop over the top. Keep repeating this until peg 5 is cast on.

- Next come back to the right and to the left wrapping and knitting each pegs till we have 4 rows on your loom. After this we increase pegs from both sides (we have 7 pegs on loom) and again knit 8 rows. Then we are going to reduce from both sides to have again 5 pegs on loom. We make another 4 rows and finally we reduce from both sides and we make 4 more rows on 3 pegs. Last step just finish off.

- Your ear part 1 is ready. You need to make one more.

## **Ears part 2 (creamy yarn):**

- Start with making a slipknot and put on your anchor peg. Then proceed to cast on 4 pegs. Wrap each peg twice and pull the bottom loop over the top. Keep repeating this until peg 4 is cast on.

- Next come back to the right and to the left wrapping and knitting each pegs till we have 4 rows on your loom. After this we increase pegs from both sides (we have 6 pegs on loom) and again knit 8 rows. Then we are going to reduce from both sides to have again 4 pegs on loom. We make another 2 rows and finally we reduce from both sides and we make 2 more rows on 2 pegs. Last step just finish off.

- Your ear part 2 is ready. You need to make one more.

- In the last step we sew both parts of the ear together. Now you only need to finish second one.

## Legs and arms (creamy, white yarn and fur yarn):

- We can use 31 or 24 pegs loom. Make slip knot and put on your anchor peg. Then wrap 10 pegs twice and pull the bottom loop over the top. Working to the right and back we will wrap and knit these pegs till we get 8 rows.

- Next step we switch colour to creamy and we make 4 more rows.

- Leave longer tail of yarn and thread the needle with it. Take off loops from the loom.

- When all the loops are off, pull that string and sew it bottom and other side to creating leg. Leg or arm is ready. You need to make three more. Legs and arms are same size.

### **Tail (fur yarn):**

- Basically to make tail I just used some leftovers yarn. You just creating little ball and secure in the end.

### **Bow (pink yarn):**

- You can use any loom. Make slip knot and put on your anchor peg. Then proceed to cast 6 pegs wrapping twice. Wrap each peg and pull the bottom loop over the top. Repeat this until all 6 pegs are casted on.

- Working to the right and back we will wrap and knit these pegs till we get 20 cm (8 inches).

- First loop will move to sit on second and you pull the bottom loop over the top. Then the last loop will sit on the one before and you pull the bottom loop over the top. After this you should have 4 pegs left.

- Next you need to fold the strip you made and put the start of the strip on top of the current pegs in use, by matching loops and again put the bottom loops over the top and repeat this for all the pegs.

- Leave longer tail of yarn and thread the needle with it. Go through each loop and take it off the loom. After this you should have a rectangle shape.

- To turn your rectangle into the bow you need to use a string of yarn to wrap around the middle part of the rectangle.

- You can shape it. Bow is finished.

**Last step is attaching all parts to your hat:**

## Step by step:

**Your Bunny Basket is ready!!!**

**Hope you enjoyed that!**

I have spent many hours creating this pattern. So please do not claim this pattern as your own. You may print and keep a copy for your own personal use. Please do not resell or distribute it.
